

Recording and editing history

Almost all records or editing made in the OZOLS TMS are logged and their history can be viewed.

Record history information:

1. **when and who added** the record ;
2. **when and who opened/viewed** the record ;
3. when and by whom the record has been **edited** and specifically **what changes** have been made.

To view Record history:

1. Open the desired window and **press the key combination Ctrl+i**
2. Record info displays which user created, edited or viewed the data
3. If the text "**Edited**" is next to the record, then you can open additional information about the history of the record with a double click.

The screenshot shows the 'Record info - Client order' window. At the top, it displays the Record ID (364), Record created (demo (Demo) on 03.05.2022 12:28:54), and Record edited (demo (Demo) on 10.05.2022 16:53:22). Below this is the 'Record history' table.

Time	User	IP	Action
02.09.2022 16:13:41	demo (Demo)	MY2	Viewed
10.05.2022 15:12:07	demo (Demo)	MY2	Viewed
10.05.2022 08:41:29	demo (Demo)	MY2	Viewed
10.05.2022 08:40:21	demo (Demo)	159.148.86.71	Edited; Delivered to Terminal
10.05.2022 08:40:13	demo (Demo)	MY2	Viewed
10.05.2022 08:40:05			
10.05.2022 08:39:50			
10.05.2022 08:39:50			
10.05.2022 08:39:43			
10.05.2022 08:39:30			
09.05.2022 15:32:38			
09.05.2022 15:31:12			
09.05.2022 15:30:20			
09.05.2022 15:12:56			

A red box highlights the record from 10.05.2022 08:40:21, which shows 'Edited; Delivered to Terminal'. A red arrow points from this record to a smaller 'Record info - Client order' window that is open over it. This smaller window shows the details for Record ID 364, created on 10.05.2022 08:40:21 by demo (Demo). The description field shows 'Delivered to Terminal: 09.05.2022 00:00 -> 01.01.1900 00:00'.

Revision #2
