Select the app and device you want to generate the app password for.

X

GENERATE

6) Tiek izveidota gmail parole OZOLS TMS sistēmai

Generated app password

Your app password for your device

avvv evom dzto tkdd

How to use it

Go to the settings for your Google Account in the application or device you are trying to set up. Replace your password with the 16-character password shown above. Just like your normal password, this app password grants complete access to your Google Account. You won't need to remember it, so don't write it down or share it with anyone.
